

About us

Kao-Technics Ltd. is a company specialised in the manufacturing of synthetic rubber goods and articles. What we have focused on, is the production of rubber mixtures, rubber-textile hoses, industrial tyres, rubber compounds and other technical products. Kao-Technics Ltd. is a Bulgarian company, founded in 1994. For 14 years now, we have been developing on the Bulgarian market and expanding in new territories. Our success is due to the constant improvement of the quality of our products, the expansion of the product range and the work of our team of specialists. Kao-Technics Ltd is the sole producer of rubber compounds for cars with textile reinforcement, in Bulgaria. Our products are exported to Belgium, Macedonia, Russia and Serbia. 40% of our production is for export markets. Our main competitive advantage is our quick reaction to market demand and custom-oriented approach.
